

Join Our E-Mail List for the Latest Updates

The Office of State Fire Marshal has a new communication tool for its customers: an electronic mailing list.

With this tool, the State Fire Marsha's Office will send out E-mails to communicate important information to its customers, such as new code adoptions, laws, regulations, policies, safety alerts, training opportunities, schedule changes, meeting agendas, reports, fire deaths, fire statistics, and other fire and life safety information.

Joining the E-mail service is simple. Visit www.llronline.com/FMARSHAL/index.asp?file=ListServe/Newsletter.html, complete the sign-up by adding your name and E-mail address. Once that is done, you will begin receiving notifications from the Fire Marshal's Office when they are published. You can also use the link to remove yourself from the list.
